

2016

Model Status : Prototype/Demonstration

This newly proposed monitor layout can reduce visual uncomfortable feeling that the driver might have in the series 2.

The side-view camera improves vehicle aerodynamics and provides the driver with clear image through digital transmission.

 <p>Touchpad HMI Enables tilting/panning/zooming operation of displayed view.</p> 	 <p>Proximity Warning Supports safe driving by detecting approaching vehicle in the driver's blind spot with camera image analysis.</p>
